ACCIDENT TO AIRSHIP

Wright's Flying Machine Turns Turtle and Falls to Earth.

ONE MAN FATALLY INJURED

While Making a Two-Man Flight a Propeller Broke and the Machine Fell Selfridge, Wright's Companion, Being Fatally Injured

Washington, Sept. 19.—After having drawn the attention of the world to his aeroplane flights at Fort Meyer, and having established new world's records for the heavier than air flying machines, Orville Wright Thursday met with a tragical accident while making a two-man flight.

The aeroplane was accompanied by Lieutenant Thomas D. Selfridge, of the signal corps of the army. Lieutenant Selfridge was fatally injured and died at 8:10 o'clock Thursday night. Mr. Wright was seriously injured, but is expected to recover.

Machine Overturned and Fell.

While the machine was encircling the drill grounds, a propeller blade snapped off, and hitting some other part of the intricate mechanism, caused it to overturn in the air and fall to the ground, enveloping the two occupants in the debris.

Soldiers and spectators ran across the field to where the aeroplane had fallen and assisted in lifting Mr. Wright and Lieutenant Selfridge from under the tangled mass of machinery, rods, wires and shreds of muslin. Mr. Wright was conscious and said:

"Oh, hurry and lift the motor."

Lieutenant Selfridge was unconscious and had apparently struck the ground with great force. His head was covered with blood and he was choking when the soldiers extricated him from under the machine.

Mechanics Heartbroken.

The mechanics who helped Wright in the work on his machine are almost heartbroken over its wreck. Mechanic Taylor said that when the aeroplane fell he expected to find Orville said, "None knew better than I," said he, "the heartaches and sleepless nights this aeroplane has cost the two Wright brothers. It is too terrible to think about."

Mechanic Furness said that he saw Orville trying hard to get the airship level again, after the propeller broke, but that the one propeller that was revolving pulled the machine downward and to the left.

"It was going too strong," said he, "to restore the equilibrium of the machine. It was most distressing that this should happen just at the zenith of Wright's success. He had bright prospects of becoming a very rich man."

Mr. Taylor in discussing the accident said he could not see how the two propellers could have come together. The agile line was in perfect condition before the flight, and the steering plane's main plane was all right.

WRIGHT IN THE HOSPITAL.

Washington, Sept. 19.—Lying in the Fort Meyer hospital with a fractured thigh and ribs, Orville Wright, the aeronaut who fell with Lieutenant Selfridge in Thursday's aeroplane accident is making a manly fight for recovery.

Through the night there was much anxiety over the injured aviator's condition, but as dawn broke and no indications of internal injuries developed and as the attending surgeon after a call shortly after 5 o'clock announced that Wright was doing very well, there was great relief expressed by those who were watching the progress of the patient.

Wilbur Wright, the brother of Orville, was notified Friday of the latter's improvement.

CHANLER IS NAMED

He Heads New York State Democratic Ticket.

DIX IS HIS RUNNING MATE

Convention Adopted Platform Arraigning Hughes' Administration and Pledged Support to the Denver Candidates.

Rochester, N. Y., Sept. 18.—Nominating all but one of its candidates by acclamation and adopting a platform which arraigns the administration of Governor Hughes and pledges earnest support to the Denver platform and candidates, the democratic state convention Wednesday nominated as the

head of its ticket for governor, the present Lieutenant governor of the state, Lewis Stuyvesant Chanler, of Dutchess county.

The ticket decided upon by the leaders with one exception seemed to meet the approval of all the delegates and the nominations were made with enthusiasm until the office of state engineer and surveyor was reached. The conference candidate for this office was Philip P. Farley, of Brooklyn, an anti-McCarren man. Senator McCarren, amid the cheers of his supporters, took the platform "To resent an insult." He declared the nomination of Farley was agreed to without any regard to the Kings county delegation and was intended to embarrass them. He declared he would always support democratic nominees but would not hold himself responsible for the action of the people who felt themselves insulted.

Farley won on a roll call, but a motion to make the nomination unanimous was lost by two or three scattering negatives.

The following is the ticket named: Governor—Lewis S. Chanler, of Dutchess.

Lieutenant Governor—John A. Dix, of Washington.

Secretary of State—John S. Watson, of Monroe.

Comptroller—Martin H. Glenn, of Albany.

Attorney General—George M. Palmer, of Schoharie.

Treasurer—Julius Hauser, of Suffolk.

State Engineer and Surveyor—Philip P. Farley, of Kings.

The convention adjourned without day after United States Senator Gore, of Oklahoma, had made a brief address.

COL. ABBOTT PASSES AWAY.

He Was the Originator of the First Railroad into Selma.

Selma, Ala., Sept. 19.—Colonel F. M. Abbott, aged 62, one of the foremost citizens of Selma and a leading developer of the city, died Thursday.

Mr. Abbott was the owner of the street railway, the originator of the first railroad into Selma and was beloved and universally respected. He will be buried at his old home, Warren, Pa.

MANY CHOLERA CASES

St. Petersburg Stricken by the Dread Disease.

115 DEATHS IN 24 HOURS

Municipal Administration Under Fire From Public Charged with Inefficiency in Handling the Cholera Epidemic in Empire.

St. Petersburg, Sept. 19.—Three hundred and five cases and 115 deaths from the Asiatic cholera have been reported for the twenty-four hours, ending at noon Thursday.

The municipal administrations, it is said, are under fire from all sides for their criminal inefficiency in handling the epidemic and for their failure to make adequate preparation for hospital, ambulance and sanitary services. Although they had ample warning of the coming disease, no effective steps were taken to stamp out the scourge, even the elementary precautions of disinfecting and cleaning were neglected, it is said. A recurrence of the outbreak in the spring in even greater proportions is considered inevitable.

LURED TO HER DEATH.

Young Woman Shot to Death for Refusing to Elope, It Is Said.

Oklahoma City, Okla., Sept. 19.—Lured to a lonely spot in Central park addition Mrs. Harry Pearson, aged 31, was shot and fatally wounded by Harry Parker, aged 28, a grain inspector from Iola, Kan. Parker escaped. According to a statement by Mrs. Pearson before her death Parker took her to see some property for which he wanted her to act as agent.

When they reached an out-of-the-way place he asked her to fly with him to Mexico. She refused, and it is said he shot her three times, took her diamonds, valued at \$200, and fled. Mrs. Pearson crawled to a house, a quarter of a mile away, where she told the story of the tragedy.

TAFT CANNOT ATTEND.

Proposed Meeting With Bryan at Banquet Falls Through.

Chicago, Sept. 19.—The contemplated meeting of Judge Taft and W. J. Bryan at a banquet here Oct. 7 has fallen through, according to a statement made by Chairman Dixon, of the republican speakers' bureau.

"Judge Taft on Sept. 23 will address the Independent Railway Men's Taft Club in Chicago," said Mr. Dixon, "but his itinerary will not allow of his speaking at Chicago October 7."

It is said that it was Judge Taft's wish to speak at the banquet, but that the speakers' bureau was not officially consulted in making the engagement.

Mr. Bryan, however, will attend the banquet, which will be given by the Chicago Association of Commerce.

FIGHT WITH CROOKS.

Men Who Broke Into Mark Twain's Residence Caught by Police.

Bedding, Conn., Sept. 19.—Two burglars who broke into the residence of Samuel L. Clemens (Mark Twain) in Bedding Thursday night were captured on a railroad train between Bethel and Bedding after a desperate fight in which Deputy Sheriff Banks of Bedding was shot in the leg.

The prisoners are believed to be professional crooks who came from New York for the express purpose of entering the Clemens villa.

Fleet Sails for Manila.

Albany, Western Australia, Sept. 19.—The American Atlantic fleet under the command of Rear Admiral Sperry left here Friday afternoon for Manila, 3,000 miles away, where it is due to arrive Oct. 3 or 4. The flagship Connecticut did not leave with the other vessels but departed at midnight to overtake the rest of the fleet. She was delayed by coaling operations.

WON ON FIRST BALLOT

Hughes Re-Nominated by Overwhelming Majority.

807 VOTES WERE GIVEN HIM

Nomination Followed a Bitter Fight By Opponents to Select a Man Upon Whom They Could Unite to Defeat Hughes—Made Unanimous.

Saratoga, N. Y., Sept. 17.—The ticket elected by the New York republican convention is as follows:

For governor, Charles E. Hughes, of New York, renominated.

For lieutenant governor, Horace White, of Onondaga.

For secretary of state, Samuel S. Koenig, of New York.

For attorney general, Edward R. O'Malley, of Erie.

For comptroller, Charles H. Gaus, of Albany.

For state engineer and surveyor, Frank M. Williams, of Madison.

For state treasurer Thomas B. Dunn, of Monroe.

For associate justice of the court of appeals, Albert Haight, of Erie, renominated.

Governor Hughes was nominated by an overwhelming majority on the first ballot. He received 827 votes

GOVERNOR HUGHES.

out of a possible 1,000 as against 181 for James W. Wadsworth, Jr., of Livingston county, speaker of the state assembly, and 31 for former Congressman John K. Stewart, of Montgomery.

The nomination was made unanimous upon motion of State Committee man William Barnes, Jr., of Albany, who has been perhaps the bitterest and most outspoken opponent of the governor's re-nomination.

The governor's re-nomination followed the after failure of a desperate struggle on the part of a number of the county leaders, who for four days have spared no efforts to discover a candidate upon whom they could unite to defeat him.

BONES OF PATRIOTS MOVED.

Americans Who Died on British Prison Ships During Revolution.

New York, Sept. 17.—The bones of American patriots who died on the British prison ships in the New York harbor during the revolutionary war have been removed from the vault in Greene Park, Brooklyn, where they have been for years, and put into the new vault under the steps leading to the prison ship Martyr's monument on the hill in the park.

This movement is from the design of the late Governor White. It is to cost \$200,000 and will be dedicated this fall. The governors of the thirteen original states have been invited to be present at the dedication.

Chattanooga, Tenn., Sept. 19.—At Thursday's session of the national convention of First Class Postmasters, Toledo, O., was selected as the next place of meeting, and Henry Bliss, Jr., of Savannah, Ga., was chosen president for the ensuing year.

REPLY OF FORAKER

To Charges Made by William R. Hearst at Columbus.

AS COUNSEL STANDARD OIL

Senator Declares that He Didn't Represent Company in Matters Pending Before Congress or of Federal Interest

Cincinnati, Sept. 19.—That he had been several years an attorney for the Standard Oil company, terminating service before the federal prosecution of that concern, but that such employment had nothing to do with matters pending in congress or in which the federal government was interested, is the substance of a brief statement made Friday by U. S. Senator Foraker, in answer to the charges made by William R. Hearst in Columbus Thursday night. Senator Foraker's statement follows:

"I do not know whether the letters given out by Mr. Hearst are true copies or not, but I assume they are, for I was then engaged in the practice of the law, and was employed by the Standard Oil company as one of its counsel in connection with its affairs in Ohio, where it was attacked in the courts and in the legislature.

"While I do not now recall the details, I remember that I rendered the company such service as I could, charged for it and was paid.

"The employment had no reference whatever to anything pending in congress or to anything in which the federal government had the slightest interest.

"That I was employed, and presumably compensated for my services, was common knowledge at the time; at least I never made any effort to conceal the fact. On the contrary, I was pleased to have people know that I had such clients.

"It had not then become discreditable, but was considered just the reverse, to be employed by such corporations.

"That employment ended before my first term in the senate expired. I have not represented the company in any way since long before it was attacked by the federal government, not since before, with full general knowledge, I was elected to the senate."

SEA ISLAND COTTON.

Savannah Market Quiet—Extra Choice Grades Most in Demand.

Savannah, Ga., Sept. 19.—The market was quiet, but steady. The grades most in request were extra choice and choice, with some demand also for fine and for fancy with full staple. This latter commanded the outside quotation. The inquiry appeared to be becoming more general as the volume of the movement becomes more liberal. Sales for the week amounted to 593 bales.

No material change is noted in the general tone of crop reports. Recently, however, there has been excessive rain in some sections, and it is apprehended that some damage may result, more particularly to the open cotton.

New World's Record.

Shuttle, Tenn., Sept. 19.—Immediately after the races were decided at the fair grounds Wednesday afternoon Ben Whitehead drove the two-year-old trotter, Al Stanley, a mile against time in 2:19. This is a new world's record for a two-year-old trotter on a half mile track, the former mark being 2:27, made by Al Stanley at Winchester, Tenn., several weeks ago.

VAGRANTS TO WORK SAYS THE MARSHAL

He Has Started Crusade Against Them
Loafing About City.

MADE GOOD HAUL ON THURSDAY

Six Offenders Caught, One of Whom
Was Released Upon Satisfactory
Proof That He Was Going to Work.
Law Should Not Be Abused.

From Friday's Daily Sun.

Marshal Arnow has made the right move, that of arresting the vagrants in the city who hang around the pool rooms and other places without any visible means of support.

Accompanied by Policeman Owens he made a round Thursday in the vicinity of the Seaboard depot, with the result that he will have five loafers to appear before Mayor Davis this morning.

For some time past a large number of negroes have inhabited this section who do nothing and cannot show the wherewith to even give them an excuse for not being classed as vagrants, and the marshal has wisely decided to put a stop to this condition of affairs.

This is only the first step taken by the officers and from this time on they intend to enforce this ordinance, and if the negroes do not hunt a job the marshal will take charge of them and see if the mayor cannot give them employment on the streets of the city.

With the proper effort the marshal is of the opinion that he will get enough of them to clean up the city and possibly do some repair work on the streets, unless they seek new fields or go to work.

This vagrant law should be enforced, but not abused, for there may be some negroes in the city who are willing to work if they could find work to do. Not every man who is loafing today is doing so of his own choice.

Mayor's Court.

From Friday's Daily Sun.

There was a special session of the mayor's court yesterday afternoon, when the vagrants were up before Mayor Davis, who let them off for their first offense, but will "deal it out to them" properly upon their next appearance.

John Daniels was let off with payment of costs.

Henry Glens, Steckert Murray, Hardy White and Oziah Miles were allowed their liberty provided they secure employment at once or leave the city.

Bish Thomas was assessed the costs in his case.

John Montgomery, who is another good "hanger on," was assessed the costs.

Passed Examination Successfully.

James Donahue, New Britain, Conn., writes: "I tried several kidney remedies, and was treated by our best physician for diabetes, but did not improve until I took Foley's Kidney Remedy. After the second bottle I showed improvement, and five bottles cured me completely. I have since passed a rigid examination for life insurance." Foley's Kidney Remedy cures backache and all forms of kidney and bladder trouble. J. W. McCallum & Co.

HE LIKES THE SUN.

R. W. Burts Writes Letter of Interest
to Old Comrades.

Honea Path, S. C., Sept. 15.—Editor Sun: By the kindness of my good friend, John Fennell, I have enjoyed the rare privilege and pleasure of reading The Sun for about two years, and as the time for renewal has come, and past, I send herewith post office money order for one dollar (\$1). Please continue to send me the Twice-a-Week Sun for another year.

Another Matter.

Some months ago it was stated in The Sun that a Mr. Parish (I think that is the name) had returned from Jacksonville, where he had gone to consult a specialist concerning a cancer with which he was afflicted, but had received little encouragement. From that day to this I have felt an interest in that man, and if he has not been relieved I should like to get in communication with him. I can tell him where he can be cured, unless his is a worse case than any I have known in recent years. I know it is said that cancer cannot be cured, but within the last eight or ten years there have been numbers of cases that were called cancers cured within the bounds of my knowledge. Do not understand me to say that I am acquainted personally with each case, but I do know several of them and have heard upon good authority of others. But I will come closer home. I myself had a cancerous sore on my nose treated four weeks ago yesterday, and today it is well. It has healed and looks healthy and well. Of course it is tender yet, but I no longer have to keep a patch over it—have turned it out, so to speak.

I am not an entire stranger in Florida. I was living at Wacahoota when the war commenced and served nearly three years in Company J, Second Florida Cavalry—was paroled at Baldwin on May 17th, 1865, and spent that night in Gainesville. Lieut. (Col.) John B. Dell perhaps has not forgotten me. John and Jim Fennell, and John Fleming of Archer, were among my war comrades.

I mention these facts that you may have some idea who it is writing to you. Jesse Emerson and wife have known me in later years. Jesse Burtz and I descended from the same stock and are distantly related.

As I do not know the postoffice address of Mr. Parish, will you please in your own way put me in communication with him?

I am prompted in this solely by a desire to help, if I can, a fellow-man in need. Very truly yours,

R. W. BURTS.

FOOTBALL TEAM IS NOW ASSURED THING

Will Have First Contest With University Eleven October 6th.

TRYING TO GET GAME WITH JAX.

First Practice Will Take Place on Old Seminary Campus Monday Night, When All Aspirants Will Be Given a Try-Out.

The Gainesville Athletic Association will have their first practice game of football on next Monday night on the old Seminary campus.

All parties interested in football and the formation of a good eleven for the city are urged to be present to participate in the practice, if they so desire, as the management will give all aspirants a try-out at the pig skin.

The first game of the association will be played with the University eleven about October 6th, just before their big game with the Mercer College of Macon, Ga., which will better prepare the University boys for the contest with this fast set.

The management of the local, or town eleven, are now endeavoring to secure a game with the Jacksonville eleven for carnival week, as they believe that in this event it would be a drawing feature during the big gala week of festivities in the State metropolis.

The association have adopted for their uniforms white jerseys and white stockings, and the emblem will be a "G," with an arrow crossed on the letter.

Much interest has been manifested by the town boys and they feel sure they will have an eleven which it will be hard to beat, but before they select all the players for the team they propose to give all who are in any way interested a show to make good at the practice games, when the names of the members will be announced.

JOHN GLISSON KILLED.

Formerly Lived at Bronson, Where He Was Engaged in Business.

John Glisson, who formerly lived at Bronson, was killed in Alabama on Wednesday, when Dr. Bedgood shot him down in front of the postoffice in Flomaton.

Glisson was well known in this section, having married a Miss Smith at Fairbanks while he was in business at Bronson, and will doubtless be remembered by many of the people around Gainesville.

Following is the information received in the telegraphic service, and which we reproduce:

"Pensacola, Fla., Sept. 16.—Dr. T. A. Bedgood, a prominent dentist of Flomaton, Ala., Tuesday shot and instantly killed John Glisson, a blacksmith. The shooting, it is said, was the result of a remark made by Glisson regarding the dentist's family.

"Bedgood saw Glisson standing in front of the postoffice, and crossed the street and shot him through the heart without uttering a word. Bedgood then surrendered."

WILL FORM CIRCUIT FOR INSIDE GAMES

University, High School, Athletic Association and Guards Comprise League.

THE FIRST GAME THIS WEEK

New Departure in Baseball for the Fans, as the Promoters Desire That Our People Shall Not Be Lacking for Amusement.

From Friday's Daily Sun.

Indoor baseball is one of the new games that will be introduced to the Gainesville public within a few days, and the different teams propose to form a circuit which will furnish games every week during the season. The game is what is known as "inside" ball, and already the Guards and the Athletic Association have formed teams and will have their first rub at the game this week.

The Guards propose that a league be formed among the different schools, to include the Athletic Association and Guards, which will give the Gainesville people amusement all during the winter months.

The members composing the Guards' team have already indulged in several practice games of this kind, and are just a little ahead of their brothers in the art, but as soon as the High School and University get organized there will be plenty doing in the amusement line.

Star players are to be found on both the Guards and Athletic teams, and after a few practice games they will be in a position to play for the amusement of the public.

CURE YOUR KIDNEYS

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Gainesville testimony: P. Y. Smith, living at 1206 Alachua avenue, Gainesville, Fla., says: "My wife has been troubled for some time with severe headaches. She also complained of a dull pain in her back, and was nervous and weak. I decided that her kidneys were not acting properly, and procured a box of Doan's Kidney Pills for her at J. S. Bodiford & Co's. She received such great benefit from the use of the first box that I obtained another supply, when the pains ceased, and she is now no longer troubled with headaches. It required but the contents of two boxes of Doan's Kidney Pills to entirely cure her."

DR. MARSH DROPS DEAD AT HOSPITAL

Was Giving Instructions to Nurse at Time of His Demise.

HEART FAILURE THE CAUSE

Sanatorium Will Be Managed by Mrs. Susan Bradley for the Present. Funeral Arrangements to Be Announced Upon Arrival of Son.

From Saturday's Daily Sun:

The sad and sudden death of Dr. C. F. Marsh, superintendent of the Gainesville Haven Sanatorium Association, Thursday night at 11:30, came as a great surprise to his numerous friends throughout the city.

The Doctor was in his usual good health all of Thursday, and up to within a few minutes of his death was laboring with a patient in the building. At the time he was struck down he had just succeeded in getting his patient quiet and was giving instructions to the nurse.

The Doctor had only recently taken charge of the institution, but from the general appearance of things he was making a success of the venture and had planned whereby Gainesville would receive a large per centage of the tourist travel that comes to the State, as he had prepared some valuable literature and would have had it out within a short while.

In the death of the Doctor Gainesville has lost a vigilant worker, and the Sanatorium will find it hard to replace the man who had so ably started the institution upon a solid and business basis.

At the time of his death Dr. Marsh was in his 67th year, and was a man of unusual activity for his age. Besides his wife, he leaves one daughter, Mrs. Deen, and one son, Frederick, who reside in Pensacola.

The son has been notified and will arrive in the city today, when arrangements will be made concerning the funeral. The body was taken in charge by the T. F. Thomas Undertaking Company and embalmed, awaiting the arrival of the son.

Mrs. Susan Bradley, who is head nurse at the Sanatorium, has assumed charge and will attend the patients and look after the affairs of the institution until other arrangements are made.

HAWKING MACHINES.

Catarrh Sufferers Are Nothing But Hawking, Spitting and Blowing Machines, Says an Authority.

Is it possible that in these days when cleanliness and sanitary reform is being preached in the churches, schools and at public gatherings, that thousands of people will continue to suffer from catarrh, when there is an absolutely certain remedy always on hand?

Hyomel (pronounced High-o-me) is a pleasant, medicated and antiseptic air. Breathe it in and it will cure catarrh. It will stop foul breath, watery eyes, and crusts in the nose, in a few days.

"I suffered from catarrh for two years; tried numerous remedies which failed; used one and one-half bottles of Hyomel and am entirely cured."—C. N. Lindsey, 407 East First avenue, Mitchell, S. D.

A complete Hyomel outfit, consisting of a strong, hard rubber pocket inhaler and a bottle of Hyomel, costs only \$1, and extra bottles, if afterwards needed, cost only 50 cents each. J. W. McCollum & Co. sell it and guarantee it to do exactly as advertised.

Hyomel also cures asthma, bronchitis, cough, colds, and infant's croup.

Social at Mr. DaCosta's.

There was a pleasant social gathering at the residence of A. J. DaCosta Friday night which was attended by several couples. Misses Mary and Nellie DaCosta gave the entertainment in honor of visiting young friends, and the evening was pleasantly spent by those present. Games and refreshments were indulged in.

Then watch it closely. And above all things don't let it suffer for any length of time with worms—that is fatal. The State Democratic Committee has as yet made no appointments for a canvass of the State by the Democratic nominees. Seems to us the party organization should do something in this line, else there may be some surprises in the November election.

"Night riders" are warning ginners in several States not to gin another bale of cotton, under penalty of having their gineries burned to the ground, until the price of the staple reaches 12 cents. It is to be hoped that these lawbreakers will soon find accommodations in the jails.

Hon. John R. Mizelle, a former citizen of Orange county but now residing on the East Coast, a life-long Republican and leader in the councils of his party, has come out for Bryan. Mr. Mizelle was at one time United States marshal for this district and is well known to many of the older residents of Alachua county.

While Judge Taft and Colonel Bryan are indulging in some very acrimonious references to each other's political record, it is a matter of congratulation that nothing can be said against the private character of these statesmen. No matter which one of them is elected, a man of clean personal and private character will occupy the White House.

Republicans are not inclined to discuss the Maine election. Inasmuch as the Republican vote fell off six per cent and the Democrats increased their vote 32 per cent, when our Republican friends are prevailed upon to give a reason for the result they invariably reply that it was brought about by "local issues." But suppose it had been different? Why, of course it would have been heralded as an endorsement of "My policies." Democrats have just cause to rejoice over the result in both Maine and Vermont for "straws show which direction the wind blows."

RED TAPE MILEAGE BOOKS.

The Atlanta Journal calls the attention of the Georgia Railroad Commission to an injustice being done traveling men in that State which is equally prevalent in Florida, and should be remedied at once. Says The Journal:

"One of the greatest hardships which the traveling men of Georgia have to endure at the hands of the railroads is the requirement that after having purchased a thousand or two-thousand-mile book as provided for by the agreement between the railroads and the commission some months ago, they must exchange the necessary amount of mileage for a special ticket before the prospective traveler is allowed to get on the train.

"We called attention to this injustice at the time and insisted that it would be a violation of at least the spirit of the agreement.

"Experience has shown that the inconvenience of using mileage in this way is even greater than was anticipated at the time and there is a very earnest demand on the part of the traveling men of the State that there shall be a return to the old system of using mileage.

"It was one of the principle advantages in purchasing mileage books that the holder of them could get on the train and decide even while he was on board, where he would make his first stop. If he changed his mind, and decided to travel a station or so farther, after he was on board, it was an easy matter to have so much more mileage pulled from his book, without inconvenience.

"And yet this was the very smallest part of the convenience. To put it over, it is not the most inconvenient feature that he cannot do this any more. The fact is that since a passenger is required to produce his mileage book and exchange so many coupons for a regular ticket, it frequently happens that he has to stand in line waiting his turn at the ticket window until it is literally too late to catch his train. If he is comparatively late in arriving at the station he sees his train pulling out because he has not time to go through the red tape of making the exchange.

"This is not an imaginary instance. We are informed that things like this occur in actual experience every day, when the whole theory of mileage books, as they were formerly issued, was to avoid this inconvenience and delay.

"Under the old system the traveling man could send his mileage book to the station, along with his baggage, and have the latter checked, which was a great convenience in the early hours of the morning.

"We repeat that the entire arrangement is contrary to the spirit of the agreement into which the railroads entered when they offered to issue these mileage books. It was naturally expected that they would carry with them all the privileges which have been associated with them in the past.

"Is this a studied effort on the part of the railroads to discourage the use of mileage books as much as possible?

"Do they wish to force the traveling men to pay the higher rate incident to the purchase of regular tickets rather than be subject to the additional inconvenience of making this exchange?

"It looks very much as if that were the case.

"At any rate we feel that it is a matter which should be taken up by the railroad commission. We have asked, from the very beginning, that the railroads make these mileage books subject to all the privileges and conveniences which formerly marked them.

"They have persistently refused to do so voluntarily, and now we feel that the commission should take up the matter.

"There is no reason why a traveler should be compelled to buy two tickets in order to make one trip, and this red tape should be abandoned."

NEGROES ARE QUALIFYING.

(Pensacola Journal.)

If the negroes in other parts of Florida are qualifying to vote in as large numbers as they are in Escambia county, the white Democracy of the State will have to do something besides sit still and look pretty.

There are now over 1,400 negroes in Escambia county who are registered and qualified to vote. Of these, 400 have qualified within the past 30 days. It is estimated that fully 400 more will qualify before election day. There is an organized effort being made now to get every negro in the county qualified to vote in November.

What is being done in Escambia county is no doubt being done all over the State. Add to this the fact that the Republicans are putting out a ticket in all of the principal counties of the State and already have a State ticket to be voted upon all over the State, and you have a situation that is worth considering.

The Republican party cannot, of course, elect a full ticket either in the State or in any county of the State this year. Neither can a rat nibble through a pine door in one night. But there is an eminently fine prospect of the Republicans electing a few county officers or representatives to the Legislature in more than one county in the State today, and with that small beginning it won't take many years for something decidedly worse to happen.

There should be an animated Democratic campaign in every county in the State this year. It will be a good deal easier to keep the State Democratic than it will to make it Democratic after it has once gone Republican.

The main point now is—let every white Democrat qualify to vote. The negroes are doing it, and the white man who fails to do so is a credit neither to his color nor his country.

\$100 MARK IS REACHED.

The Sun's Bryan and Kern campaign fund has reached the one hundred dollar mark, the \$3.25 called for in yesterday's Sun having been promptly subscribed by a gentleman who does not care for his name to be made public. All contributions have been remitted to Chicago, and receipts will soon be in hand for same.

The condition of the fund now stands as follows:

Previously acknowledged.....\$ 96.75
Cash 3.25

\$100.00

Now let's make the amount \$150, which can easily be done if a few more members of the county committee will imitate the good example set them by Dr. H. L. Montgomery and J. K. Feaster.

Frank Clark, the Democratic candidate for Congress for this, the second district, is one of the brainiest men in the South. He has no superior in Georgia or Florida as a lawyer, and has made a greater national reputation during his two terms in Congress than has any other member from Florida during the same length of time. He is one of the common people, and never fails to champion their interests. He is needed in his district just now, or will be a little later on, to awaken the Democratic voters to a sense of their duty as no other man in the district can do. And he'll be here at the proper time.

In announcing suspension of The Tallahassee Sun the publisher informs his subscribers that he is making an effort to have the unexpired subscriptions carried out by Watson's Jeffersonian. Looks like L'Engle, as a parting shot, is trying to carry the State Populist. The Sun had a numerous list in Starke, ranging somewhere from three to six, and we shudder to think of what would happen to the Democratic ticket if all this horde of stalwarts should be suddenly and unceremoniously transferred to Watson.—Starke Telegraph.

Four years ago the State press was commending the administration at Tallahassee for the low tax rate then prevailing. How about the tax rate now? Notwithstanding there has been a large increase in property valuations, both real and personal, the tax rate has been materially increased. Four years more of Brownardism would impoverish the people. But, thank heavens, the people will be relieved of his rule after the first of January next.

For the first time in many years the New York Democracy has shown that it is thoroughly united. An excellent ticket has been nominated for State officers, and the leaders have entered the contest with a determination to win. The nominee for Governor was elected Lieutenant Governor two years ago notwithstanding the tremendous majority Governor Hughes had over Hearst, and Mr. Hughes is without doubt weaker with the masses of his party today than before he entered upon his duties as Governor. He has antagonized a large element of the Republicans of the Empire State, and thousands of them will revenge themselves against him at the polls. In fact, he would never have been renominated had not President Roosevelt commanded the delegates to the State convention to do so. The platform upon which he has to stand is in opposition to his past actions and public expressions, and everything considered he cannot go before the people with the same energy with which he entered the last campaign. It may be, however, that he will construct a platform of his own and repudiate that of his party. But if he does he will lose more votes than he will gain by such action. On the other hand, Mr. Chanler, the Democratic candidate, is running upon a platform thoroughly in accord with his every expression and has a united party back of him.

Our esteemed friend, General E. M. Law, editor of The Bartow Courier-Informant, a real general who gained his title by valiant service in the Confederate army, has been seeing visions of late, and following is his version of one of them: "A pious man once died and went to heaven. The day after his arrival an angel volunteered to act as his guide and show him the sights of his new home. Presently they came to a group of men each of whom had a ball and chain attached to his legs. The stranger, in a surprised tone, asked: 'Why, how is this? I thought there were no bad men in heaven.' The angel smiled sweetly and replied, 'Oh, those are not bad men, but they came from Florida, and we have to chain them or they would go back.'"

The Farmers' Union will petition the next Legislature for the enactment of a law prohibiting the sale of Sea Island cotton in the seed. The object in asking for such a law is to enable the growers to get in closer touch with the spinner and eliminate what is known as the "middle man." Whether it would accomplish the desired result remains to be seen, but it is safe to predict that the union will get what they ask for in this particular.

If certain of our subscribers do not pay up soon we will be compelled to drop them from our list. The postal laws require publishers to discontinue all subscriptions over one year in arrears, and if you are among this number you must pay up if you desire The Sun continued to your address.

If you desire to vote in the November election you must pay your poll taxes not later than October 10th. The registration books are now open in each election district, as well as at the court house, and if you have not registered and paid your poll tax, do so at once. It is a duty you owe your country to vote.

MORRIS CARTER CAPTURED.

From Sunday's Daily Sun:

Morris Carter, Jr., charged with selling booze, and who was under bond awaiting the last term of the circuit court, has been arrested in Valdosta, Georgia.

Sheriff Fennell received a wire from the chief of police of that city notifying him of the arrest Saturday, and left at once for the prisoner.

On his return here Carter will be compelled to serve his time in jail, as it will now be a hard matter for him to give another bond, as he "jumped" the first one.

BRYAN AND KERN.

The Sun's Campaign Fund Continues on the Upward Trend.

The latest subscriber to the Bryan and Kern campaign fund is Hon. W. M. Blitch of Santa Fe, who says he has been waiting for someone to take the lead in district No. 2, but as no one seems inclined to do so, he sends his mite to The Sun. If the various precinct committeemen would put forth a little effort Old Alachua's subscription toward the election of the Democratic ticket would be a good one, but it seems that, with two exceptions, the committeemen take no interest in the matter, and we therefore appeal to all who feel inclined to contribute to remit direct to The Sun. The amount (not less than one dollar) will be acknowledged through the columns of this paper and a handsome two-color lithographed receipt will be mailed to you.

Every Democrat should help the cause to such extent he feels able to do so, and do it at once. The time is short, but much work must be done if the hosts of the people are to put the plutocrats to rout. Will you do your part? If so, DO IT NOW.

The condition of The Sun's campaign fund now stands:

They are making a specialty of furnishing four rooms for the small sum of \$119.50, and give you the advantage of paying a little now and a little later on. This is only one of the features they are offering, and prospective purchasers of furniture should not fail to give them a call.

Alarm.

Sunday's Daily Sun:

Policeman Owens Friday night took
the guilty parties who sent
the alarm from Box 73, lo-
cated in the corner of Roper and
avenues, but without effect.

Practice has been indulged in
of late, and the officer says
will stop them if he has to
shoot along to assist him in
this, and in this he is to be
aided by the good people gener-
ally.

He is not positive as to who
committed the deed, he knows
of the people who were in

dence to warrant him in making the
arrest, and this will be done by Mon-
day at the latest.

A bicycle was left un-

it.

From the danger that these
gangs cause, it robs not only

PROPERTY REDUCED BY CITY COUNCIL

Action Regarding Factory Street Was
Rescinded at Special Meeting.

SURVEYOR ASKED TO REPORT

is Finally Settled—Two Ordinances
Are Passed on Final Reading at the
Special Meeting.

From Saturday's Daily Sun:

The City Council met on Thursday
at 4 o'clock in adjourned special ses-
sion with President Shands, Alder-
men Burnett, Cannon, Graves, Vidal,
Mixon and Clerk Dell in attendance.

Upon motion of Alderman Burnett
the action of Wednesday's meeting
was rescinded regarding the petition
of Jerry Runkle concerning Factory
street, and the city surveyor was in-
structed to investigate the matter and
report to the council.

Alderman Cannon moved that the
valuation on the residence property
of J. R. Eddins be reduced to \$1,000;
which was carried.

Alderman Burnett moved that the
valuation on the personal property of
the Eddins Manufacturing Company
be reduced to \$3,000; which was car-
ried.

Alderman Vidal moved that the
rules be waived and Ordinance No.
166 be placed on its third reading,

FOR EMBEZZLEMENT MINGO IS ARRESTED

Wanted in Starke on This Charge and
Caught Here.

A BIG CONTRACTING NEGRO

For Years Has Been Working The
Section from Starke to Gainesville,
But Always Made Home Here,
Which He Claims as Headquarters.

Mingo Roberts, a negro, was arrest-
ed Saturday by Sheriff Fennell upon
a warrant from Starke charging him
with embezzlement in the sum of \$300
from parties at that place.

Mingo, as he is known by all in this
section, is what might be termed a
contracting negro, one of much busi-
ness, as he has always got some big
contract on his hands for wood, ties,
or the like, and is known to handle
a good deal of money, even if he does
not make anything off his contracts.

For years he has been working the
timber from Starke south to this city,
and always has a large force of hands
in his employ.

He has been considered a slow one
in this section for years in the pay
line, but he always manages to keep
plenty of hands and good teams, with
which to carry on his business.

Just the nature of his embezzlement
at Starke could not be learned, but it
is known that he got parties in that
section to advance for him when he
had a large cross-tie contract and
was cutting his timber a few miles
north of the city, and this is doubt-
less the reason of his present "finan-
cial embarrassment."

Was Not Glisson of Here.

From Sunday's Daily Sun:

The telegraphic information relative
to the killing of John Glisson, men-
tion of which occurred in The Sun,
was not the Glisson that formerly re-
sided at Bronson and who is well
known in this city. This John Glis-
son is located in Georgia, where he
is doing a lucrative business at his
trade of blacksmith.

NEWS OF CITY AND COUNTY CONDENSED

B. Roland, one of the enterprising
citizens of High Springs, was in the
city Saturday and called at this office
and had his name enrolled on the
subscription list of Alachua's lum-
inary. He was accompanied by W. D.
DuBose of that place.

F. W. Watson and family of Mica-
nopy were among the shoppers visit-
ing Gainesville Saturday. Mr. Wat-
son says that great preparations are
being made in that section for fall
truck, and the planters will plant ex-
tensively of various vegetables.

Miss Mary Medlin departed yester-
day for Gainesville, Ga., where she
will enter the Brenau College. She
was accompanied as far as Jackson-
ville by her mother, Mrs. R. D. Med-
lin, and Miss Flora Morriston, who
is visiting the family in this city.

J. L. Smith, who formerly resided
at Micanopy but for the past nine
years a resident of Birmingham, Ala.,
where he is employed by a boiler-
making firm, was in the city yester-
day on his way to Micanopy, where
he will visit his father, J. W. Smith,
for the next several days.

Bert Powell of Alachua, who is
employed at Meredith, was in the
city yesterday. He had the misfor-
tune to recently cripple himself by
some falling timbers which came in
contact with his leg, but he is now
able to "hobble" about and will re-
sume his duties at an early date.

Capt. C. A. Neal of Newberry was
among the business visitors to the
city yesterday. It will be remember-
ed that the Captain was one of the
heavy losers in the Newberry fire,
but he is undaunted and will at once
begin the erection of another build-
ing and again engage in the mercan-
tile business at that place.

Fabian Thomas of Windsor was in
the city Saturday. He brought along
some excellent samples of Murray
Hall sweet potatoes which he present-
ed to the editor and which are highly
appreciated. They are an excellent
potato, smooth and fine in appearance,
and are an excellent keeper and good
yielder for this section of the coun-
try.

PORTER'S QUARTERS SCENE OF COMBAT

Henry Beasley Gets Too Much Tiger
Aboard Friday Night.

WILL APPEAR BEFORE MAYOR

Opens His Knife and is the "Jesse"
of That Part of City Until Police-
man Owens Cites Him Otherwise.
"Blind Tiger" Boozed Got Him Riled.

From Sunday's Daily Sun:

Henry Beasley, a bad negro who
was playing "Jesse" in Porter's
quarters in the southwestern section
of the city, was arrested by Police-
man Owens on Friday night and he
will be required to tell the mayor
about it Monday morning.

The negro in question had filled up
on blind tiger "boozed" of the extra
cheap variety, consisting of tobacco
juice, fusil oil and black pepper,
which made him real bad and he
wanted to slay everything and every-
body within his path with the ugly
knife he had in his possession.

He had succeeded in putting sev-
eral women of the neighborhood to
flight and had some of the men backed-
off when Policeman Owens arrived on
the scene and soon put the would-be
"Jesse" out of business.

With little ceremony the officer
showed him he was not so many, and
soon had his man on the way to the
station house, where he was lodged
to sleep off the effects of his over-
dose of bad whiskey, and as it will
take until about Monday to get him
right, his case will not come up for
hearing until that time.

Had Fine Crowd.

Rev. S. B. Rogers, who preached to
the good people of North Gaines-
ville on Friday night, was greeted by
a large and appreciative congregation
from that thriving suburb. Many peo-
ple of the city availed themselves of
the opportunity and were present to
hear the subject handled.

OUR semi-annual heart-to-heart talk is due, for the Fall is approaching and preparations for refurnishing occupy the mind. Now, suppose you have the cash. COL. FRANK CLARK'S GOOD WORK IN MAINE

Largely Instrumental In Bringing Out
The Large Democratic Vote.

IS POPULAR IN WASHINGTON

Result in Maine is Encouraging to
Democratic Cause—Connecticut, New
York and New Jersey in Doubtful
Column—Battle in Middle West.

(Special Correspondence The Sun.)

Washington, Sept. 18.—Representative Frank Clark has made a brilliant campaign up in Maine, being largely instrumental not only in effecting the heavy reduction of the Republican majority, but in bringing out an abnormally large Democratic vote in that rock-ribbed Republican State.

Col. Clark has also greatly endeared himself to the Democrats of the District of Columbia since he took charge of Democratic Congressional Headquarters, his urbanity and sympathy with all the legitimate needs of the district being especially noted.

The result in Maine, so largely contributed to by the efforts of Col. Clark, can justly be regarded in no other light than as encouraging to the Democratic cause, and as placing the States of Connecticut, New York and New Jersey, at least, in the doubtful column.

The conservatism of New Englanders in politics is proverbial. They are slow to change their political convictions, but when a change does come it is usually about as permanent as is anything appertaining to the sentimental side of man. Now, the fact of greatest significance in this election just held in Maine is, not the reduction in the Republican majority, encouraging though that unquestionably is, but the actual and heavy increase in the Democratic vote. This shows plainly that the tide is surely turning "Down East;" that the people are becoming weary of the alliance between plutocracy and absolutism; and if this be so, even along the iron-bound coasts of Maine, what may not be expected to result when the great independent mass of intelligent voters of the Middle States and the Middle West cast their ballots in November? New York, for instance, is never reliably Democratic or reliably Republican; but the inde-

S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.

pendent voter has a way of unexpectedly proving his power by making the politically unexpected happen.

The fight now on is between plutocracy and absolutism on the one hand, and the people and their right to rule on the other. Nowhere is this fact more likely to penetrate the minds of the people than in New York, Connecticut and New Jersey. Roosevelt may be a reformer, but his brand of reform means no more nor less than a reform with all power in the hand of the President. In other words, he is a benevolent despot, and as a ruler for the Persians, or perhaps the French, would be ideal. His policies, however benevolent, are not the policies to suit the free people of a free republic, who have a right to demand a reformation of the "known abuses" by and through the law, and the law, alone, without shearing the States of their constitutional rights, while conceding to the general government every iota of its constitutional function.

Right there it is that Roosevelt, and consequently Taft, are at the opposite ends of the pole from Bryan. He demands the same reforms, but through the channels of the constitution and the laws, Federal remedies to supplement, not supplant, State remedies. This is what he means, and his platform means, in asking the question: "Shall the People Rule?"

Reform, reform, reform; but shall it come through despotism, or by means of the constitution and the laws? It is up to the thinking people of the Middle States and of the Middle West to decide. The result ought not to be, but is, more than doubtful.

EDMUND B. BRIGGS.

A Traveling Man's Experience.

"I must tell you my experience on an East bound O. R. & N. R. R. train from Pendleton to LeGrande, Ore.," writes Sam A. Garber, a well-known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said: 'There is a woman sick unto death in the car.' I once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into LeGrande, where I was to leave the train. I gave the bottle to the husband in case another dose should be needed, but by the time the train ran into LeGrande she was all right, and I received the thanks of every passenger in the car." THEY LOVED LINCOLN.

To These Women the Greatest American Statesman Was Also a Man.

There was a wild-rose slip of a girl in a slated blue sunbonnet with whom he walked the lanes of his homespun days, says Mabel Potter Daggett, in The October Delineator. There was a clever, cultured woman, whose brilliant intellect lighted his ascending way in the Illinois Legislature. And there was the belle of the gay social set at Springfield, who fluttered across his pathway as it led to Washington. One he loved, and one he tried to, and one he married. These were the women that he courted. They loved Lincoln. To them the greatest American was far nearer than a lofty figure on a high pedestal. They heard his heart beat!

These were the women that loved Lincoln. One of them today lies near the banks of the Sangamon, where he loved her. To the last there was with him the long, long sorrow of her loss that cast its shadow across his heart in youth. As late as 1864 he pushed aside State papers in the Executive Mansion at Washington to talk of her late in the night to a friend who had come from back home. One rests peacefully in a little cemetery at Pleasant Ridge, Illinois. The mother of five children, her tombstone reads, "Mary Owens Vineyard." One lies at his side in the great mausoleum in Springfield, where the State keeps her bier and his heaped with fresh, fragrant flowers. When an assassin's bullet took his life, the American people mourned a great President. She mourned a great husband. "He was the kindest man in the world," she sobbed.

Lewis Cooksey Acquitted.

Lawrenceville, Ga., Sept. 18.—In the superior court here Lewis Cooksey, the 12-year-old boy, who had been indicted for causing the wreck on the Southern road a few weeks ago, in which Engineer Dowberry was killed, was acquitted. There were two indictments against him, one for murder and the other for train-wrecking, and by agreement of counsel, both cases were heard at once, with the result above stated.

Murder in First Degree.

Centerville, Ala., Sept. 18.—The conviction Wednesday of Mipalo Lazovich of murder in the first degree and fixing his punishment at life imprisonment, marks the second conviction in the Blocton assassination cases. Conductor Joseph Collins and two others were killed on the night of August 8, when union sympathizers fired upon a train bearing troops and nonunion men to the mines at Blocton.
